

# Fernsicht - Sterne zum Greifen nah

A photograph of two men in an observatory. The man in the foreground, wearing a grey and black baseball-style t-shirt with 'CIAU' on it and glasses, is looking through a large telescope. The man behind him, wearing a white shirt and a dark jacket, is also looking through the telescope. The telescope is a large, complex mechanical instrument with a wooden hand crank and a corrugated metal hose. The background shows the interior of the observatory with various mechanical parts and a window.
